15th Annual Sale

• FEBRUARY 19, 2024 •

Billings Livestock Commission

Billings, Montana • 1:00 PM

200+ YEARLING BULLS SELL

Building the *Future* with **SCIENCE**

Welcome TO THE 15TH ANNUAL SALE

It is a pleasure for us at Allied Genetic Resources to again be working with this progressive group of breeders that make up the Bulls of the Big Sky group. To find a group of like-minded producers that have worked together this long marketing their genetics is rare. The reason this group has been so successful over the years is because they all agree on one goal, producing the best bulls possible for their commercial customers. These breeders have been collectively progressive in their breeding philosophies. An example of this is they were some of the first to adopt RightChoice and RightMate technology. This groundbreaking genetic and genomic data analysis allows breeders to make precision matings and presents the outcomes in a simple to us format with the ACE, G+, and ATM designations on the bulls in this sale. Please refer to page 4 for more information.

Once again, these bulls have been developed under the same management since weaning at Veltkamp Feeders. Phil Veltkamp and his crew have done an amazing job again this year with this set of bulls. You will find that they have been developed in a way that their maximum genetic and performance potential is expressed without being pushed excessively to the point that they are too fat and fall apart once you get them home. Phil Veltkamp and his crew are second to none accomplishing this with the bulls they develop.

All the signs are in place for some prosperous years in the cattle business. Our beef cow inventory is at one of the lowest points since data has been recorded and the demand for high quality beef is as strong as ever. However, as we all know input costs are also at very historic levels. This is why it is more important than ever to invest in good genetics. Cattle that perform and fit their environment are key to keeping input costs low. Buying genetics from trusted sources that put strong emphasis on genetic selection and are willing to adopt the best measurement tools available is key for commercial producers maximize their profits during the years to come. Not to mention heterosis is the only free lunch in the cattle business. So why not use a good mix of Simmental and SimAngus genetics to increase fertility, longevity, and improve weaning weights?

When you study this sale book, videos and see the bulls in person I think you will find that there is going to be a bull for most every program and a variety of budgets. If you have any questions about the offering, please don't hesitate to contact me, any member of the Allied team, or the breeders. We hope to see you sale day.

Sincerely,
Marty Ropp, Rocky Forseth, Corey Wilkins and Jared Murnin

Country Inn and Suites 406-245-9995
231 Main, Billings, MT
www.countryinns.com

Boot Hill Inn 406-245-2000
242 E. Airport Rd, Billings, MT

Air Transportation:

Billings is served by Northwest, Delta, United, Horizon, Skywest, and America West, and has excellent facilities for light aircraft.

Terms:

All cattle sell under the Suggested Terms and Conditions of the American Simmental Association.

EPDs:

All EPDs are the most current BOLT at the time of printing conducted by IGS and the American Simmental Association. Please note that EPDs may change from the time the sale catalog is printed until registration papers are transferred.

Sale Updates:

Sale Order will be posted on www.bullsofthebigsky.com, www.DVAuction.com, and on Facebook by Sunday Evening, February 18.

Publication Representatives:

Jeff Thomas, *The Prairie Star* 406-581-8859
John Goggins, *Western Ag Reporter* 406-698-4159
Devin Murnin, *Western Livestock Journal* 406-696-1502
Andy Roberts, American Simmental Assn. 406-852-4387

Auctioneer:

Ty Thompson 406-698-4783

Sale Day Phones:

Marty Ropp 406-581-7835
Billings Livestock Commission 800-635-7364
Maureen Mai 208-660-2726
Jeff Thomas 406-581-8859
Rocky Forseth 406-590-7984
Jared Murnin 406-321-1542

Online Bidding and Payments:

Cattleusa.com will not be available for sale day. Bid live online at www.alliedgeneticresources.dvauction.com. All successful bidders will be invoiced from Bulls of the Big Sky. If payment is not received prior to March 15, a charge of \$50 per bull per month may be applied.

Health and Vaccinations:

The bulls were vaccinated and boosted at weaning time with BoviShield 5, Inforce, One Shot Ultra 8, (or a Bovi OneShot combo), Somnubac and Dectomax Injectable. They were again poured with an Ivermectin in December. All bulls have been tested and are negative for BVD/PI3.

View this salebook and videos of the bulls online at:

www.bullsofthebigsky.com
www.alliedgeneticresources.com
www.dvauction.com

Insurance:

Insurance will be available on sale day and is recommended. Bulls of the Big Sky encourage buyers to purchase insurance on the bulls for death or injury.

Join us for Dinner – Sunday, February 18:

Please join us Sunday night for a homemade dinner. It will be a great opportunity to visit about the bulls and visit with other cattlemen. Dinner and social hour will be at 6:30 PM at Hampton Inn, 5110 Southgate Drive, Billings.

ABOUT THE BULLS

Bull Warranty:

Warranty and guarantee of the bulls will be covered by the breeder of the individual bulls. Every bull selling carries a 100% guarantee extended warranty for one breeding season (not to exceed 90 days) provided the bull is managed properly and in acceptable nutritional physical health. In the event a customer has any problem with a bull (health, injury, or death) prior to or during the bulls first breeding season the customer should immediately contact the breeder of the bull to report a claim. A veterinarian's statement of the problem will be required and Bulls of the Big Sky members reserves the right to have the bull returned if deemed necessary. A replacement bull of mutually agreed upon quality will be provided if Bulls of the Big Sky has one available. In the event a satisfactory replacement is not available, the customer will be given a full credit (minus salvage value) to be used in a future Bulls of the Big Sky sale. Bulls of the Big Sky members will not be held responsible under any circumstances for any settlement amount exceeding the purchase price of bull. NO one can guarantee that every animal will perform perfectly, but the Bulls of the Big Sky group will try to make things right if they do not.

Announcements:

Announcements made from the auction block during the sale take precedence over printed material in the catalog or other printed material associated with this sale. Anyone attending this sale attends at their own risk. Breeders and sale force will not be held responsible for any personal injury for attending this sale.

Volume Buyer Discount:

Buyers purchasing 5 or more bulls will receive a 5% rebate on their total purchase following delivery.

Notice to Canadian Buyers:

Bulls of the Big Sky will provide free delivery to the US side of Port of Entry at Sweetgrass, MT and pay for the cost of regular health papers. The Buyer is responsible for the cost of additional Canadian or Provincial Health Requirements.

Notice to Out of State Buyers:

Please know your state health requirements prior to sale day.

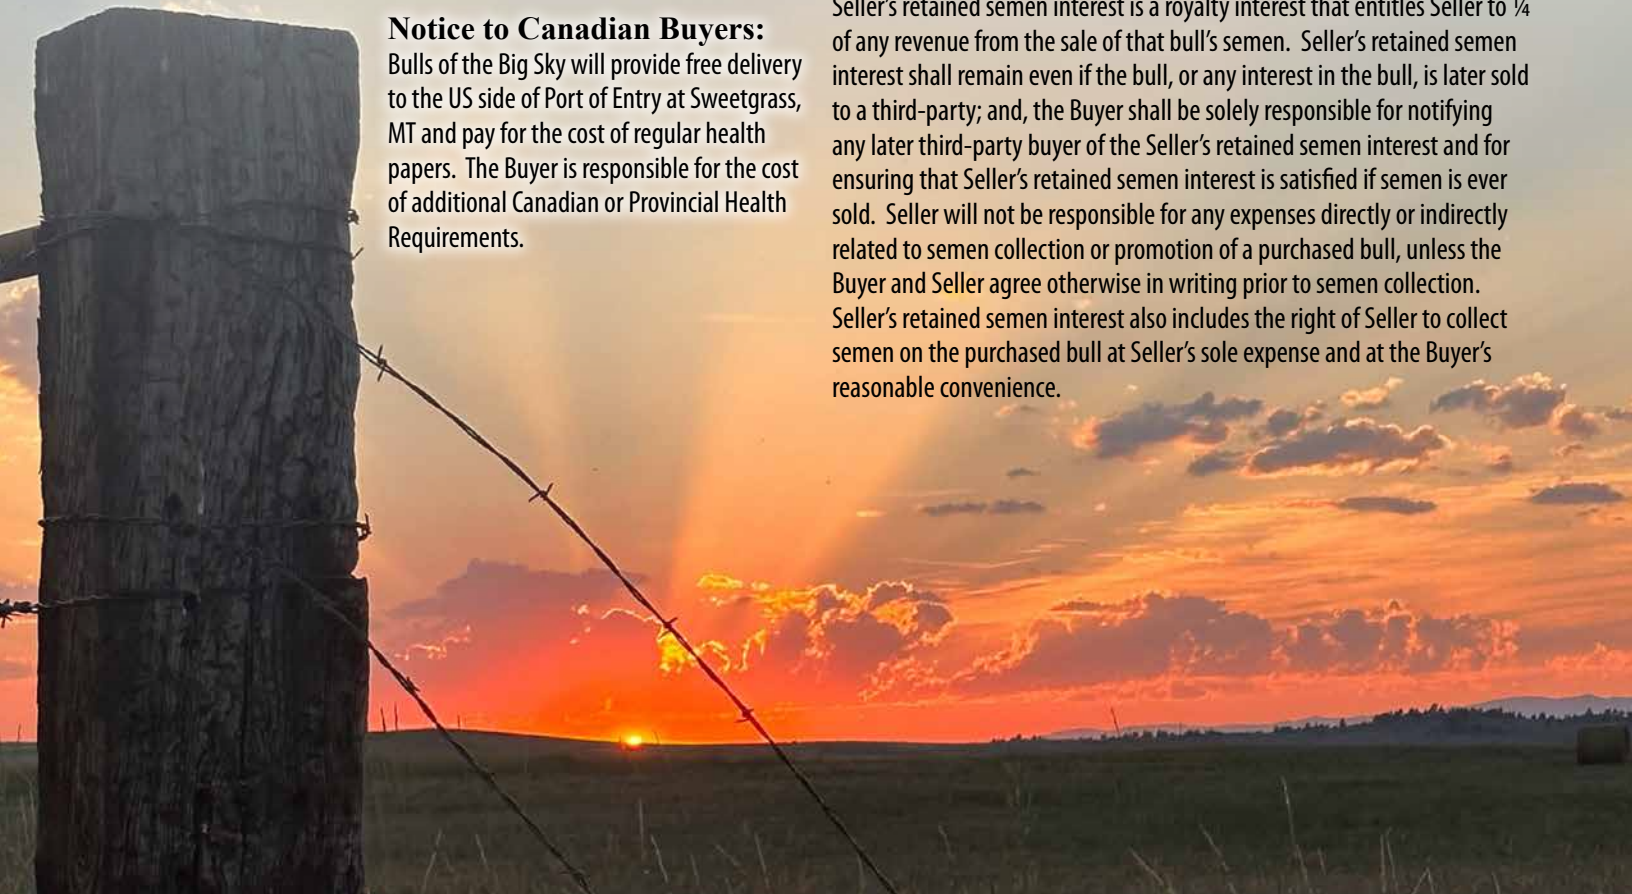

If your state requires Trich testing on 12 months or younger, the bull(s) will not be able to leave Montana immediately after the sale and must return to Veltkamp's for testing. Though Bulls of the Big Sky pays for the cost of all regular health papers, the cost of Trich testing and other state specific health requirements will be the responsibility of the Buyer and will be billed to the Buyer.

Feeding and Delivery:

Bulls will be fed free of charge back at Veltkamp's Bull Development Facility in Manhattan, MT until April 1, 2023. During that time, we will semen test and give your bulls a Breeding Soundness Exam. If a buyer wishes to keep their bull at Veltkamp's after April 1st, feed beyond April 1st and freight will be left to the buyer. We begin delivering bulls by the last week of March and early April. If you have special delivery requests, please let us know at the time of the sale. Feed charges will be \$4.50 per head per day for those that request their bulls remain at Veltkamp's after our delivery time. Bulls taken by the buyer immediately after the sale will receive a \$150 discount, but we remind you that we will not have had the opportunity to semen test bulls taken by a buyer immediately after the sale, and we recommend that the buyers arrange for semen testing at their ranch prior to turnout. For purchased bulls traveling beyond 500 miles, the most economical trucking available will be arranged.

Retaining Semen Interest:

The bull buyer will receive full possession, 100% salvage value, and $\frac{3}{4}$ semen interest of any bull purchased in this sale, while the individual selling ranch ("Seller") will retain $\frac{1}{4}$ semen interest in any bull that it sells. Seller's retained semen interest is a royalty interest that entitles Seller to $\frac{1}{4}$ of any revenue from the sale of that bull's semen. Seller's retained semen interest shall remain even if the bull, or any interest in the bull, is later sold to a third-party; and, the Buyer shall be solely responsible for notifying any later third-party buyer of the Seller's retained semen interest and for ensuring that Seller's retained semen interest is satisfied if semen is ever sold. Seller will not be responsible for any expenses directly or indirectly related to semen collection or promotion of a purchased bull, unless the Buyer and Seller agree otherwise in writing prior to semen collection. Seller's retained semen interest also includes the right of Seller to collect semen on the purchased bull at Seller's sole expense and at the Buyer's reasonable convenience.

Improved Buying Confidence with Greater Genomic **ASSURANCE**

Access to more and better information has always been key to making wise decisions. The evolution and improvement of genetic evaluation tools too has given us an ever-clearer picture of the true genetic makeup of cattle and thus a better view of the value proposition. RightMate, powered by Top Genomics LLC is taking the evaluation of genetics and genomics one giant step further. By combining specific genomic information with the long-proven value of EPDs, this new advancement in technology improves our depth and precision when evaluating the actual ability to transmit value and profit.

The 3 Accreditation Logos below are designed to simplify bull selection and improve buyer confidence by more accurately describing the genetics offered and by reducing risk. What this means to you as a customer is a much greater assurance that you are getting both what you want and need from the genetics you purchase. What it means to your seedstock provider is access to RightMate technology that simply sets them apart from the rest of the industry.

ACCREDITED GENOMIC PLUS – For the majority of producers who simply need consistent and balanced genetic improvement, without genomic setbacks, G+ Accredited bulls should be on your list for premium purchase. These sires will absolutely move you forward for both cost reduction and income producing traits and substantially reduce risk when compared to all other evaluation programs. It's simple, the right genes are in these bulls to help secure a profitable future and they have great EPDs to match!

ACCREDITED CALVING EASE – Simply find bulls with the ACE logo for third party Accredited, secure Calving Ease bulls. Though we have had tools in the past to assist in choosing heifer bulls, we've never had one nearly this effective. The reduced risk that comes with this genomic certification will simply make your decisions easier and your heifer calving season more successful. Purchase special purpose ACE bulls with confidence. They will deliver consistent and predictable calving ease.

ACCREDITED TERMINAL MATE – Just like an ATM machine makes it simpler to access your cash, the ATM Logo highlights bulls accredited to generate extra cash income as soon as your next calf crop! These bulls are meant specifically to use only on mature cows and for the purpose of adding performance, pay weight and end product value to market.

L56 leads off the flush out of Diana D69, dam to LBRS Genesis. Diana's progeny, like Genesis will add value in every aspect, great feet, structure, growth, exceptional carcass merit and we are just starting to tap the maternal strengths behind this power house donor. L56 himself is a wide based, level topped bull with extra dimension and overall physical excellence that is hard to beat.

ATM

L254 is a tremendous Genesis son that checks all the boxes. Phenotypically this bull is impressive from every angle and is one of the cleanest fronted Genesis sons you will find. His dam is one of the prettiest Beacon daughters to date and it was an easy decision to put her in our donor program this last spring. L254 is a true gem and has the potential to do it all. Calving ease, maternal, carcass and structural soundness second to none. With his red gene he could be the start of the next great red generation.

G+

Here's a bull with a splash of white on his face that is really clean made and stylish in his make-up. We are really pleased with the cow behind this bull. She is deep bodied and feminine with a ton of natural thickness. You would be hard pressed to find a nicer udder or sounder footed female. We look to her to do great things.

L206 is powerfully constructed, square made and level topped. His dam is an exceptionally maternal Top Grade cow with a ton of mass and excellent hoof structure. She ratioed 105 for WW on 8 calves. Expect Arrowhead sons to sire calves that come easy with explosive growth thereafter. This bull is on a trajectory to do all those things along with excellent maternal value.

There is a pretty good selection of the Homeland calves at the sale. Each of them have their contributions for growth, carcass and maternal traits. They are very consistent in their muscle shape and design. This one was a chute mix-up so he is heterozygous black. He will make a great option for some red cows. 533L is a smaller frame, extra wide and deep. Dam's 3rd calf with a CI of 340 days and 103 WW and 108 YW ratios.

G+

This Homeland son is long and wide on a moderate frame. He comes with a little more CE than some Homelands but never missed a beat on his on test gain. He is out of a moderate Nelson Livestock cow that we have had for years. 12 calves with a CI of 357 and she has already calved again this year for #13.
